This document illustrates the use of Document Properties in filling out a template.
*If you click **File / Properties / Custom** you should see the following as key/value pairs.*
*If you press **Alt-F9** you should see how the text below is generated from the variables.*
In particular, the date is rendered two different ways in the document below.
*You can practice: Click **Insert / Field / Document Automation / DocProperty**, press*
*space in the textbox to activate **Options**, and scroll to find variables starting with "L4."*

The key terms of this agreement are as follows:

Seller	Name	Alice Apple
Buyer	Name	Bob Banana
Consideration	USD 100	
Closing Date	1 Jan 1970	

Parties:

(A)   Alice Apple, the "Seller".
(B)   Bob Banana, the "Buyer".

Desiring:

I.   to eat fruit.
II.   economic efficiency.

Now agree:

1.   Definitions.

1.1.   Tomato is a vegetable.
    1.1.1.   Never mind what Science says.
1.2.   Closing Date means Thursday, January 1, 1970.

2.   Sale.

2.1.   Alice to trade the Tomato in exchange for USD 100.
2.2.   Bob to trade USD 100 in exchange for the Tomato.

3.   The cash consideration is USD 100.
You can have as much unnumbered paragraph text as you like here.

Or you could have an unnumbered heading.

4.   With numbered text beneath it.

Love,
Legalese.com

Feeling slightly embarrassed to even call this sort of thing "computational law", but you gotta start somewhere! 2020-08-08
